Introduction to Machinery Vibrations (IMV) Training Course

When: August 15-18, 2016

Time: 8:00 am - 5:00 pm

Location: Oak Brook, IL

Investment: \$1,525 (VI Members are entitled to a 10% discount off registration pricing.)

Course Description:

This course prepares attendees to perform a range of simple, single channel machinery vibration condition monitoring and diagnostic activities, is recommended for individuals as an introduction to machinery vibrations and is **partial preparation for the Vibration Analyst Category I Certification Exam**. The workshops and demonstrations, scheduled throughout the training course, are used to illustrate theory and applications.

Course Outline:

Vibration: Sources, Uses, Effects
Workshop I: Vibration Demonstrations and Workshop Questions
Workshop II: Definitions, Terminology, Measurements, Demonstrations
Workshop III: Measure Analysis, Natural Frequencies, and Demonstrations
Workshop IV: Data Collection Demonstration and Workbook Questions.
Workshop V: Vibration Testing
Workshop VI: Spectrum Analysis and Demonstrations
Workshop VII: Fault Analysis
Workshop VIII: Vibration Severity
Course Review
Training Examination on Course Content (One hour)
Training Examination Review

Course Location:

VI Headquarters
2625 Butterfield Rd. Suite 128N
Oak Brook, IL 60523
