RE: Middle East Conference

Vibration Institute Announces First Middle East Conference in Egypt

Oak Brook, IL - Vibration Institute is pleased to announce the first-of-its-kind vibration and condition monitoring conference in Sharm El-Sheikh, Egypt, March 12-14, 2018.

To better serve our international customers in the oil and gas hub of the world, the Vibration Institute, along with its middle eastern partner, RITEC, are offering this exceptional three track educational experience.

- Track 1 will cover applied papers
- Track 2 will cover case studies with either successful implementation and those that have yet to be resolved
- Track 3 will cover technology including emerging technologies and related applications

The Middle East Conference currently is calling for papers for its three educational tracks. For more information or to submit your paper, please visit <http://www.ritec-eg.com/conference.html>

Situated in southern Egypt between the desert of the Sinai Peninsula and the Red Sea, Sharm El-Sheikh is known for its beautiful sand beaches, crystal clear waters and colorful coral reefs. It is a truly breath-taking destination!

If you have any questions, please contact: Sean McDonald, Marketing & Communications Manager, at smcdonald@vi-institute.org

For more than 40 years, the mission of the Vibration Institute has been to disseminate practical information on evaluating machinery behavior and condition without commercial interest. The Institute offers programs including education, training, certification, and opportunities for exchanging technical knowledge, networking.
